monetary policy and financial inclusion, fintech/insurtech, crypto-finance and financial security

Professional career Alexis Collomb

After an initial career in investment banking in New York, and on the trading floor as an equity derivatives strategist and then cross-asset strategist in London, Alexis joined the Cnam in 2011 to take over responsibility for its Chair of Market Finance and its Master's program. He was also the director of the Economics, Finance, Insurance and Banking department (EFAB), which includes the Ecole Nationale d'Assurances (Enass). An engineer by training, he also holds a master's degree in systems economics and a doctorate in management science from Stanford University. He also studied artificial intelligence in Japan. He is a member of LIRSA (EA 4603) and is also on the scientific board of Labex Refi.
