

Thierry DEVAUX

Research themes

- Management of organizational paradoxes
- Decision-making under uncertainty and ambiguity
- Critical approaches to leadership and management
- Temporal, spatial, and performance dynamics in organizations
- Edutainment and game-based learning for organizations

Professional career

Thierry Devaux graduated from ENSGSI, Paris I Panthéon-Sorbonne University, and IE Business School and defended his thesis in management sciences at the Conservatoire national des arts et métiers in 2025.

He joined Le Cnam as a visiting professor and research associate. He previously worked in digital project management consultancy internationally, and later as a project governance, budget, and regulatory risk manager within banking information systems divisions. He is also an entrepreneur who founded a company specializing in professional upskilling through game-based learning.

He is a member of Lirsa and currently works on the management of organizational paradoxes, executive decision-making under uncertainty, critical approaches to leadership, temporal and spatial dynamics of performance, and edutainment methodologies for knowledge retention.
